DETAILED ACTION

Amendment

1. Acknowledgement is made of Amendment filed May 1, 2006.

Allowable Subject Matter

2. Claims 1-6 and 8-27 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Toh et al. (US 2003/0058284) teaches a memory card interface/reader 33 having a source icon 114, which is displayed in a grayed-out manner (or in non-selectable mode) if there is no memory card inserted in the memory card interface/reader (paragraph 37).

Shin et al. (US 5,987,134) teaches a smart card reader having the verification device 10, which is invoked or executed by the user clicking on the iconic symbol representing the application (col. 9, lines 3+).

Verissimo et al. (US 5,841,654) teaches a graphical representation of a Fieldbus network is created by first displaying an icon representing a computer. After the computer icon is displayed a user is permitted to select an interface device, for coupling the computer to the fieldbus network to be configured or controlled, from a menu of available interface devices. Upon selection of an interface device, an interface icon representing the interface is added to the graphic representation of the Fieldbus network with the interface icon being linked to the computer icon (col. 2, lines 52+).

Jones et al. (US 6,438,638) teaches a flash-memory-card reader reads and writes multiple types of flash-memory cards, including CompactFlash, and the smaller SmartMedia, MultiMediaCard, Secure Digital and Memory Stick.

Art Unit: 2876

Applicant's remarks on page 8 of Amendment filed May 1, 2006 have overcome the prior art rejection. Toh, Shin, Verissimo, and Jones, taken alone or in combination thereof, fails to specifically teach wherein the card reader is operable to report an interface of a memory card inserted into the card reader; and wherein the display is operable to display an icon specific to the interface of the memory card inserted into the card reader, wherein the icon is selected from a plurality of possible icons, and wherein each of the plurality of possible icons is specific to a respective one of a plurality of different memory card interfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
